Dear Members and Staff

Having received a number of letters of complaint or concern, followed by the allegation of dishonesty and lack of transparency by member and staff representatives at the meeting in the Town House on 24 November, it is with considerable regret that the undersigned resign from the board of the company with immediate effect, thus clearing the way for your election of a board of your choice.

We reject the unfounded above allegations, and also the contention that the AGM on 22 October was not concluded and that there was no opportunity for nomination of new members. A number of documents are being forwarded with this resignation, one of which is the minute of the AGM, signed by the chair.

It is regrettable that relationships have deteriorated since the board sought to discuss the Centre's financial difficulties at the AGM but we wish you well, particularly with your 'friends of initiative'. The board would have supported that initiative, had it been informed.

Yours sincerely

Sheena Crumlish
